

CII CERTIFIED WAREHOUSE KAIZEN PRACTITIONER

Indo-Japan Logistics Human
Resource Development
Cooperation

True Japanese view of “Kaizen” is more to do with mindset and approach towards continuous improvement. It is a way of doing work and achieving collective goals of the organization. Customer first, total optimization and life cycle cost are three key characteristics of every Certified Warehouse Kaizen Practitioners viewpoints and actions.

CII Certified Warehouse Kaizen Practitioner course is more than a qualification. Unlike any other Certification, this course provides accreditation jointly by Japan Institute of Logistics Systems and CII Institute of Logistics, following International Standards in certification of professional competencies.

The course is organized in three modules that would be completed in 90 hours within in 3 months. The first batch of the certification programme is scheduled from 17 December 2020.

Enrolment and eligibility criteria

The course is organized in three modules that can be completed in 90 hours within in 3 months. The first batch of the certification programme is scheduled from 17 December 2020.

This is a professional accreditation programme; applicants shall be in supervisory or assistant managerial positions in Logistics site and must be authorized by employer.

Self-employed professionals can also apply with submission of self-employment evidence and warehouse facility access. All self-employed persons shall have minimum qualification of any undergraduate degree.

All applicants will undergo “mandatory online assessment” within 5 days from the date of Module 3 closure. To extend the benefits of progress made through many parts of course study, applicants can receive any of the three forms of recognition

CII Certified Warehouse Kaizen Practitioner

Accredited certification will be provided for all applicants scoring more than 80% in the “mandatory online assessment” and acceptance of employer or warehouse owner “authorized case study report”.

CII Pre-certified Warehouse Kaizen Practitioner

Pre-certification letter will be given for all applicants scoring more than 80% in the “mandatory online assessment”.

CII Appreciation letter of participation

All other applicants will receive “appreciation letter” citing participation in the programme.

Course details

Certified Warehouse Kaizen Practitioner course modules require considerable focus on study and practice. It follows “learning by doing” principle and therefore mandates every participant to practice key learnings in safe work environment under proper supervision.

Blended course design ensures participants will receive best value through online lectures, digital forums, workshops and assessments. The course is organized in three modules.

All participants can exchange views on the subject and share additional learning material from their experience in online course discussion forum. Course instructors will be moderators for online discussion forum.

INR 17700 [Inclusive of GST]

About CII Institute of Logistics

Logistics sector in India is poised for accelerated growth led by GDP revival, increased need in transport infrastructure, e-commerce penetration, impending GST implementation and other government initiatives as "Make in India". Estimated to have grown at 15% in last five years, logistics boosts growth at its wide array of services like transportation, storage, distribution and integrated/ allied services.

To address the growing need of sharpening India Inc's competitive edge through better Logistics and Supply Chain practices, CII Institute of Logistics (CIL) was established in 2004 by the Confederation of Indian Industry as a Center of Excellence in Logistics and Supply Chain.

At CII Institute of Logistics we create a platform for the Industry to gain more insights into the emerging trends, industry specific problems of national importance and global best practices in logistics & supply chain management. We enable the industry to cut down the transaction cost, increase efficiency, and enhance profitability and enable to sensitize and bring solutions to macro level issues.
